

NEUROTHEORY ST

NeuroNex presents:

Junior Scientist Workshop on Advanced Neural Data Analysis

COLUMBIA | Zuckerman Institute
MORTIMER B. ZUCKERMAN MIND BRAIN BEHAVIOR INSTITUTE

UNIVERSITY of
HOUSTON

Hosted by **the Center for Theoretical Neuroscience at Columbia University**
Organized in partnership with the **NeuroNex Theory Team at University of Houston**

Aug. 26-29th, 2019
New York City

#wanda2019

Apply now!

Deadline: May 25th

neuraldataworkshop@gmail.com

Where data and theory get together.

This workshop is intended for PhD students and postdocs who want to learn and share advanced techniques in data analysis as well as apply them to complex neural datasets. Attendees will present their research projects, followed by a hands-on programming tutorial on the techniques used in their work.

The ideal participants are computationally minded experimentalists as well as theoreticians with experience in analyzing experimental data.

Funds to cover travel, accommodation, and meals will be provided

We encourage applications from female scientists and those belonging to underrepresented minorities.

Organizers: Fabio Stefanini, Mario Dipoppa, Rainer Engelken, Krešimir Josić, and Ashok Litwin-Kumar.
